

## Bank said no? Regional Growth Fund said no?

Want two billion reasons to attend a seminar with HMRC which could help you fund your company?

### Did you know...

- The annual cash value of R&D Tax Relief claims in the UK is more than £1bn.
- The annual cash value of tax claims under the UK's new Patent Box rules is forecast at £1bn.
- New Creative Sector Tax Reliefs will benefit the North East's computer games, apps and animation companies.

### How will this help North East companies?

This seminar will cover two new corporate tax reliefs and one existing but underused tax relief. It is likely that many companies across the North East will be able to claim at least one and in theory, could potentially claim all three of these reliefs.

You may have been to seminars which have outlined Patent Box before, but HMRC's presentation at this seminar should make a real difference to your understanding of how HMRC expect companies to benefit from the Patent Box rules.

### Come and speak to the experts...

Phil Louch from HMRC's Patent Box team will be presenting on how the new Patent Box rules will operate from HMRC's perspective, whilst Sharon Connolly from HMRC's R&D Unit will present on key developments since September 2011.

Alastair Wilson, Tax Partner at Tait Walker LLP will present on:

- What these new reliefs mean in practice for North East companies of all sizes.
- How to make using the reliefs as easy as possible.
- Why HMRC should be seen as an organisation to work with, not against.
- Why businesses should view these reliefs as an alternative to bank or grant funding.

To book a place at either of these events, please contact Kirsty Ramsey on 0191 285 0321 or email [kirsty.ramsey@taitwalker.co.uk](mailto:kirsty.ramsey@taitwalker.co.uk)

Alternatively, please visit our website [www.taitwalker.co.uk](http://www.taitwalker.co.uk) for further details of these and other events we are holding over the coming months.
